HENRY BREUER, OLD NORTH SIDE RESIDENT IS NO MORE

Large Owner of Real Estate and One of the Early Residents Dies at Ripe Old Age

The death of one of the oldest and first settled in Dubuque, coming to best known residents of the lower part of the north side occurred last evening at 8:45 when Henry Breuer passed away at his home at 403 Avon street after a lingering illness. The main cause of his death is said to be enlargement of the liver.

He has been ill at various intervals for the past thirty-five years. He had always a pleasant disposition and was liked by all who knew him. During the past few years his eyes have been failing and his constant illness no doubt hastened his death.

Deceased was 79 years of age and was born in Germany. He came to this country when about twenty-one years of age and

La Crosse a few years later, where he was married to Miss Margaret Gensbach, who still survives.

Mr. Breuer's principal business was shoemaking from which he retired about thirty years ago. He owns considerable real estate about the north side.

Those who survive besides his widow are Mrs. Gertrude Page, of Wilmer, N. D., Mrs. Margaret Kissouri of St. Paul, Adolf from Minneapolis, who has been here for the past few days and was present when death came, and George, Joseph and Bruno of La Crosse.

Two other sons, Perry and Tony, who gained considerable reputation as railroad men, were killed at duty.

NORTH SIDE BRIEFS

Miss Catherine Wicks is ill at the home of Mrs. Tilton on Wall street. Mrs. Dr. R. M. J. Kinnear has gone to Appleton where she will attend the commencement exercises. She will be the guest of her daughter, Miss Anna who is attending the university there.

Mrs. Mary Richmond of Rose street has gone to Davenport, Ia., to spend some time visiting her daughter, Mrs. Appley.

Dr. J. L. Callahan has purchased a new Catalact machine from the Gar-

age on North Third street and made a run to the north side in it this morning.

Mrs. R. A. Taylor the Rose street milliner will leave this evening for Chicago accompanied by her daughter Mrs. D. O. Weida to attend the mid-summer opening.

Harry Tilton has gone to St. Paul to accept a position with the Great Northern.

Ellsey Lampman has returned to his home at 1027 Rose street after a visit with relatives and friends at Minneapolis.

Mrs. George Baum of 1010 Rose street is reported to be much improved and able to be around again.

Miss Selma Peterson entertained four of her friends on Monday afternoon. Loretta Taylor, Cecil Darling, Mary Hanson and Selma Olson were those present.

CENTRAL TO TAKE OVER NEW LINES

MADISON, Wis., May 22.—The Wisconsin Central railway company has filed with the secretary of state an amendment to its articles of incorporation which authorizes it to take over the Owen and Northern and the Lake Superior and Southeastern railroad company properties, running from Owen, Clark county, to Duluth, St. Louis county, Minn. The line passes through Clark, Taylor, Chippewa, Rusk, Sawyer, Washburn, and Douglas counties in Wisconsin, and St. Louis county in Minnesota. The Central company has been engaged in building this branch for some time. The amendment is signed by H. F. Whitcomb as president and Charles M. Morris as secretary of the company.

Dr. P. A. Wakefield spent Sunday in the city with friends.

A Change

When Coffee Is Left Off.

It is almost as hard for an old coffee toper to quit the use of coffee as it is for a whiskey or tobacco fiend to break off, except that the coffee user can quit coffee and take up Postum Food Coffee without any feeling of a loss of the morning beverage, for when Postum is well boiled and served with cream, it is really better in point of flavor than most of the coffee served nowadays, and to the taste of the connoisseur it is like the flavor of fine Java.

A great transformation takes place in the body within ten days or two weeks after coffee is left off and Postum Food Coffee used, for the reason that the poison to the nerves has been discontinued and in its place is taken a liquid that contains the most powerful elements of nourishment.

It is easy to make this test and prove these statements by changing from coffee to Postum Food Coffee. "There's a reason."

SILK THIEVES PROBABLY
PLANNED ANOTHER JOB

Since the arrest and sentence of the silk thieves who stole eight bolts of silk from the Park Store during the noon hour last Friday there has been considerable speculation as to why the two young crooks, otherwise so slick in carrying out their criminal plans, did not get out of town on the first train after committing their crime and billing the stolen goods.

The authorities after thinking over the matter, have come to the conclusion that the two young men were making plans to do another job before leaving the city when they were arrested in their room at Hotel Law Friday night shortly after 11 o'clock. They probably figured that the loss of the silk would not be discovered at once and that they were safe from apprehension in view of the fact that only one young lady in the store had occasion to notice them, and that she would not be able to give a good description of them. They had left a

call at the hotel for 3 in the morning and probably planned on burglarizing some store and getting away on one of the early morning trains with the swag bound for St. Paul, where they had billed the suit case containing the stolen silk which they had left at the Adams Express office and which had already been transported to the Burlington depot before Desk Sergeant John Webber located it.

Company M has started its annual target practice on the range south-east of the city, which has been fixed up in first class shape. Regular practice will be continued until the encampment.

The appeal in the case against G. H. Higgins, who was convicted upon the charge of larceny of a horse through fraud, has been withdrawn and Higgins will serve out the balance of his sentence of 20 days.

JUST WHAT NEW CIVIC BODY
PROPOSES TO DO FOR CITY

Following are the complete articles of organization of the La Crosse Citizens' league, which proposes to make a sane campaign for law enforcement for the protection of young girls and boys, whom, it is charged, are going a fast pace to disgrace and shame while the good people have looked idly on:

Whereas it has pleased a representative body of the citizens of La Crosse, Wis., to meet for the purpose of organizing a society, the function of which shall be the ethical improvement of our city and its immediate vicinity, it is voted to elect a committee whose duty should be the choosing of a name for the organization and deciding upon the work to be accomplished.

The committee having met beg to submit the following report.

Article I.

Our honorable and industrious city officials need and deserve the moral support of the most advanced ideas of our representatives citizens.

Article II.

The organization shall be strictly non-political and non-sectarian.

Article III.

The slogan of the organization shall be: "The protection of the young. Personal conscience a correct guide for every responsible adult and a square deal for every citizen."

Article IV.

The name of the organization shall be Citizens' League of La Crosse.

Article V.

There shall be two classes of members. First, active members consisting of the officers and members of regular standing committees. Second, supporting members composed of any person in sympathy with the organization and willing to give it their moral support and vote when needed.

Article VI.

There shall be an executive committee composed of the temporary committee on organization with such other members as may be added on the nomination of the president and

confirmation by the executive committee.

The executive committee shall have full control of the organization.

Meetings may be called at any time by the president or by the secretary on application of two members of the executive committee.

To do business five members shall constitute a quorum.

Article VII.

The officers shall consist of a president, first and second vice presidents, a secretary and treasurer.

The officers shall be elected from and by the executive committee.

The duty of the officers shall be such as usually devolve upon such officers.

It shall be the duty of the president to appoint such standing committees as may seem advisable, subject to the approval of the executive committee.

It shall be the privilege of the president to appoint any secret committee or to employ any private detective that he may see fit. The committee or detective to report only to himself providing the organization are not responsible for any indebtedness so incurred.

Article VIII.

All money shall be raised by private contributions, by the finance committee of which the treasurer shall be the chairman.

Article IX.

The purpose of the organization is to support our city officials in every possible way in enforcing such existing laws as the popular sentiment of the law abiding citizens approve of.

This sentiment at present we believe to be the abolition of all wine-rooms and devices used for such purposes in saloons.

Second, the prohibition of sale of intoxicating beverages to minors and the prohibition of minors in places where intoxicating beverages are sold without parent or guardian.

Third, the prohibition of gambling by minors.

Article X.

It will not be expected that full compliance with these requests shall be immediately realized; but it will be the purpose of the executive committee, after conferring with the city officials, to allow a reasonable time for the readjustment of the present existing conditions.

Article XI.

When violation of the above principles are reported to any member of the organization it shall be his duty to make sufficient investigation to establish the truthfulness of the report and if found correct all evidence shall be submitted to the president in writing. The president shall then make a personal investigation or appoint a reliable committee to do so. In case the charges are substantiated, it will be the duty of the president to give his report with the evidence collected to the proper city officials, who shall see that proper penalties are enforced.

In case of continued repetitions of such offences a revocation of the licenses of the offenders shall be demanded.

There shall be a standing committee of which the president shall be chairman ex-officio, whose duty shall be to confer with the city officials as to the propriety and advisability of all questions and to make their report to the executive committee and help the city officials in any that may be found feasible.

WOULD COMPEL ROAD
TO SHOW IT'S
'05 BOOKS

MADISON, Wis., May 22.—State Railroad Commissioner Thomas has officially asked the attorney general if he has power to compel the Chicago, Milwaukee and St. Paul Railway company to submit its books and records for 1905 to him for examination. The company has refused to do so, claiming that the law passed on June 16, 1905, creating the state railroad commission, supercedes the law passed three years ago authorizing the railroad commissioner to examine the books and records of railroad companies for the purpose of ascertaining whether it was giving rebates and whether it was paying a full license fee on its gross earnings. The attorney general has the matter under consideration.

The funeral of Miss Anna Dvorak was held yesterday from St. Wenceslaus church and interment was made in the Catholic cemetery.

THE NELSON CARPET COMPANY
The Store Out of the High Rent District. SAVE THE DIFFERENCE

Food Authority

A Famous English Physician (Who requests that his name be withheld from publication) says of

Grape - Nuts

"In cases of slow digestion, lack of stomach tone, and debility, this food is invaluable."

NOW FOR THE REASON:

The great bulk of human food is starch in some form—bread, pastry, potatoes, rice, cereals (such as oats) wheat, rye, barley, etc.

This class of food supplies "energy" if it be properly digested, but there's the rub. Starch and sugar in food are digested by the liver and intestines. When these organs are overworked or become weak, then the food is not entirely digested and lies in the warm moisture of the stomach until it decays, producing gas, and therefore disturbance and incipient disease of the liver and intestines and frequently appendicitis.

To meet this trouble Grape Nuts food was invented. In it, the starch part of wheat and barley is transformed by long soaking, warmth, and time, into sugar—just the same method as the body employs in digestion. Hence when one eats Grape-Nuts he eats a predigested food, ready for immediate digestion and assimilation, supplying the body with the needed food elements in a soluble and delicious form.

THE LONDON "LANCET" SAYS:

"The features worthy of note in our analysis are the excellent proportion of proteid, mineral matters, and soluble carbohydrates per cent. The mineral matter was rich in phosphoric acid. 'Grape-Nuts' is described as a brain and nerve food, whatever that may mean. Our analysis, at any rate, shows that it is a nutritive of a high order, since it contains the constituents of a complete food in very satisfactory and rich proportion and in an easily assimilable state."

The food is naturally pre-digested by heat, moisture, and time. The diastase is thus produced and the transformation of starch into sugar accomplished.

A perfect food for persons with weak intestinal digestion and who need, but cannot fully digest ordinary bread and starchy food.

For athletes, brain-workers, or the weakest babe.

(For infants, pour hot water over three or four teaspoonfuls of the food. Use that water with a trifle of the food dissolved in it.)

"THERE'S A REASON."

DR. FED HIMSELF.

Found the Food that Saved His Life.

A good old family physician with a life time experience in saving people finally found himself sick unto death.

Medicines failed and — but let him tell his own story. "For the first time in my life of 61 years I am impelled to publicly testify to the value of a largely advertised article and I certainly would not pen these lines except that, what seems to me a di-

rect act of Providence, saved my life and I am impressed that it is a bounden duty to make it known.

"For 3 years I kept failing with stomach and liver disorders until I was reduced 70 lbs. from my normal weight. When I got too low to treat myself, 3 of my associates physicians advised me to 'put my house in order' for I would be quickly going the way of all mankind. Just about that time I was put on a diet of Grape-Nuts predigested food. Curiously enough it quickly began to build me up, appetite returned and in 15 days I gained 6 lbs. That started my re-

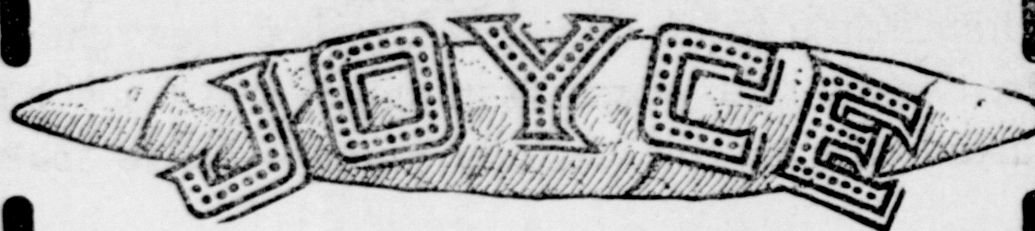

turn to health and really saved my life.

"A physician is naturally prejudiced against writing such a letter but in this case I am willing to declare it from the house-tops that the multiplied thousands who are now suffering as I did can find relief and health as easily and promptly by Grape-Nuts. If they only knew what to do. Sincerely and Fraternally yours." Name of this prominent physician furnished by Postum Co., Battle Creek, Mich.

Look in pkgs. for a copy of the famous little book, "The Road to Well-

Happy! Not Drunk.

"Whoopee, godziggerly!" yelled the man from Buffalo County, as he jumped up and cracked his heels. A policeman ran up and grabbed and took him to the call box. It took the man ten minutes to explain that he was not drunk, but just happy because he had found the JOYCE was a 5c cigar instead of a 10c one.

THE HOUSER-HOST SCANDAL.

The charges made by Zeno M. Host, state insurance commissioner, against Secretary of State Walter Houser, are the political sensation of the hour.

Mr. Host's allegation, made before the legislative committee of inquiry into the affairs of the insurance companies in this state, is that Mr. Houser presented him with a paper in which an insurance company had indicated the decision it would like from the commissioner relative to a certain matter that had come before him, and that Mr. Houser conveyed to him by word of mouth an offer of a \$2,000 campaign contribution in return for such decision; in a word, that Mr. Houser had acted as a go-between in offering a bribe. Mr. Houser, on the contrary, says he handed the paper to Mr. Host, but conveyed no offer of a bribe and knew of none. Senator Frear, candidate opposing Houser for nomination as secretary of state, is the chairman of the investigating committee before whom the above charge was made.

It would be good news that Mr. Houser is able to disprove the charges. While they may not care to support his third term aspirations, the people hereabout have been well treated by Mr. Houser and have, in the main at least, approved his administration. The silhouette of a piece of politics on the transaction, adds to the tendency to wish Houser were well out of it.

Friends of Mr. Houser may say, "Why did not Mr. Host immediately disclose the dishonesty of Mr. Houser, if the latter approached him in the capacity of a briber?" It does look as though political ambition is a better detective than civic reform.

However, the one pivotal fact remains. Mr. Houser either did, or did not, act as go-between between a would-be briber and a state official. If he did, his public career should end in the infamy his conduct deserves; if he did not, those who preferred charges of vicious conduct on his part should be covered with the confusion due to those who bear false witness against their neighbor. And whether it be true that circumstances have placed Mr. Frear in the clumsy position of sitting in judgment upon a political rival, or whether he was himself responsible for the situation having developed, Mr. Houser should not be judged in this matter by him. This is an issue that must be tried in the open court of public opinion. There is still much confusion as to the facts, with Mr. Houser at a disadvantage. A hasty judgment may result in a wrong. Wisdom and justice suggest care and deliberation in adopting a verdict.

THE WAVE OF SENSIBLE REFORM.

A unique movement for what, in a broad sense, may be called, "civic reform," has been inaugurated in this city.

It is not, the principals say, a lid-on-tight movement, but looks rather to regulation and control of things that, in a runaway, are dangerous. One imagines from the speech of the president that the policy sought is exactly that long advocated by Chief of Police Hugh H. Byrne, and that therefore it will have his support as well as that of the mayor.

Presuming that it is what it purports to be—an effort by sane businessmen to regulate things the abuses of which make them dangerous and obnoxious—if that is the purpose of the movement it will survive and grow effective. If, on the other hand, it is a Sunday closing, you-can't-eat-

mince pie affair, it is doomed to the defeat that similar movements are pretty certain to meet with in a German-American liberty loving community.

Brewery and amusement interests should welcome this wedge that is to be driven between them and the radical "morality howl" with which many inoffensive cities have been afflicted. We advise the brewers and the businessmen generally to become participants in the conduct of this league, lest a more sweeping policy be adopted as the result of one of those political propagandas that are making the grass grow in the streets of many once prosperous cities. Liberal views, human sympathy, conservative and humane cleanliness—these may do good to La Crosse if La Crosse accepts them in the right spirit. But Heaven preserve us from the hysteria of the maniacal civic reformer who cries that the rot of Sodom and Gomorrah is upon us.

BEG PARDON, COAL MEN.

For a second time the coal dealers of La Crosse have been wronged by The Tribune.

Sometime ago a notice was published stating that the usual spring reduction in the price of coal would not be made, "owing to the coal strike."

The Tribune published an editorial commenting on this fact, and blaming the Coal Trust.

Yesterday a notice was published by the Coal Trust, saying it had met normal prices, and the over-charging was up to the retailers. The Tribune printed this, and said it was up to the retailers of La Crosse to explain.

Immediately explanations came. It was said that the reduction HAD been made in La Crosse on May 10th. The Tribune felt like apologizing; it still feels like correcting. But it felt at a loss to understand, so The Tribune man asked, "Was any notice of the reduction ever given to the public?" And the man said, "No."

So, The Tribune merely corrects, and it advises the coal combine of La Crosse to advertise its reductions in prices. Usually when merchants reduce prices, they are in a hurry to advertise the fact. If they are charging one price, and say nothing of a reduction, it is usually assumed that no reduction has been made.

THE TRIBUNE LOW BIDDER.

The Tribune was low bidder for the city printing today. Its bid represents a reasonable profit, and is just what it would have bid had it known that it was not to be low bidder.

In truth, The Tribune was not low bidder. Mr. Gelatt was there, fingering his bids, but at the last moment he declined to enter them. That he was ashamed to bid a reasonable price after his assertion that the work could not be done at less than a price representing several hundred per cent profit, was obvious. The Tribune was THE ONLY bidder.

The probability is that the city council will declare The Tribune to be the Official Paper at its next meeting. It will attempt to faithfully deliver the goods.

JUST LIFE

When Love Passed By.
(Contributed.)

I was busy with my plowing.
When Love passed by.
"Come," she cried, "forsake thy dragging;
Life's delights are few and grudging;
What hath man of all his striving,
All his planning and contriving,
Here beneath the sky?
When the grave opens to receive him
Wealth and wit and honors leave him—
Love endures for aye!"
But I answered: "I am plowing.
When with straight and even furrow
All the field is covered through,
I will follow."
—Love passed by.

I was busy with my sowing.
When Love passed by.
"Come," she cried, "give o'er thy toiling;
For thy toil thou hast but mowing—
Follow me, where meadows fertile
Bloom unsworn with rose and myrtle,
Laughing to the sky;
Laugh for joy the thousand flowers,
Birds and brooks—the laughing hours
All unnoted fly."
But I answered: "I am sowing.
When my acres all are planted,
Gladly to thy realm enchanted
I will follow."
—Love passed by.

I was busy with my reaping.
When Love passed by.
"Come," she cried, "thou planted'st
grieving,
Ripened sorrow art thou sheaving.
If the heart lie fallow, vain is
Garnered store. Thy wealth of grain
Is less than Love's least sigh.
Haste thee—for the hours fast dwindle
In life's western sky."
But I answered: "I am reaping.
Home the hock-cart comes, full laden,
I will follow."
—Love passed by.

I had gathered in my harvest.
When Love passed by.
"Stay," I called—to her, swift speeding,
Turning not, my cry unheeding—
"Stay, O Love, I fain would follow.
Stay thy flight, oh, fleet-winged swallow
Cleaving twilight sky!
I am old and worn and weary,
Void my fields and heart—and dreary.
With thee would I fly.
Garnered woe is all my harvest,
Sad ghosts of my dead hopes haunt me.
Fierce regrets, like demons taunt me—
Stay!—I follow!"
—Love passed by.

The reformers might set their secret committee at work on Fourth

street between Main and State most any night in the week, for good pointers.

—W. V. K.

A REVELATION

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Sold by O. T. Erhart.

Join the summer school of music now being formed at the Keefe Conservatory of Music, Funk block, corner Fourth and Pearl. Thorough instruction by teachers of noted ability, piano, voice, violin, mandolin, guitar, etc. Get our reduced rates for the summer months.

Mrs. Fred Stingle has gone to Minneapolis to spend a few days with friends.

Keefe Business College will be in session all summer. Enter now for the business and shorthand courses.

WE WILL HAVE PEACE, ELSE THERE WILL BE NO NAT- IVES TO MAKE TROUBLE

Washington, May 22. — More than 600 marines will confront Liberal leaders on the isthmus of Panama in case they attempt to promote riots and revolution at the time of the election in Panama on June 20. Although the canal zone is under the secretary of war there is no indication that the war department will have any troops near the isthmus at the time of the approaching election, and Secretary Taft must rely upon the marine corps to protect the canal zone. Only 200 marines are on the isthmus at present. These are in command of Major C. G. Long. More than 400 marines are on the Columbia, which is on its way to Guantanamo and will be within easy call in case the politics become stormy in Panama.

Threatening Political Situation.
This large detachment of marines is in command of Major Lejeune. The Marblehead, which is now sailing southward down the Mexican coast, and is only a few days from the isthmus, carries only a small detachment of marines, and cannot add much strength to any land expedition which may be necessary to quiet the political situation which is so threatening. The zone police force has been strengthened materially, and is so well equipped

that it is in reality a miniature army, and is ready for service at any time.

They Know What We Will Do.

Under the leadership of the well-trained marines it is believed the police force will be able to quell any disturbances which may arise. Secretary Root and Secretary Taft have also made it clear that they will take a hand in disturbances outside of the zone, and if the Liberals begin any movement against the present government of Panama it will be with full knowledge that the United States expects to intervene in disturbances which will delay the canal work or effect it in any way.

BURTON GETS NO RELIEF

Supreme Court Decides Against the Senator from Kansas.

Washington, May 22. — The United States supreme court has decided that Senator Burton, of Kansas, was properly tried and convicted. Burton's sentence was nine months in jail and a fine of \$2,500 for receiving compensation for services rendered before a government department, he at that time being a senator. Burton received the news of the court's decision by telephone at his room in the Raleigh hotel, where he is stopping. To the news-

paper men who called to see him Senator Burton said: "I shall adhere to my original policy of saying nothing until my case is finally determined."

Immediately after promulgating its decision the supreme court granted a motion to give sixty days to Senator Burton in which to prepare a petition for a rehearing. The action will have the effect of taking the case over until the next term of court beginning in October, as the present term will expire next Monday. The senate will be compelled to take cognizance of the case, and a prominent senator said that if Burton does not resign at once a resolution will be introduced expelling him. The decision was by a divided court, Justices Brewer, White and Peckham dissenting, on the ground that the United States was not "legally" interested in the case in which Burton appeared before the department.

Senate and House in Brief.

Washington, May 22. — The legislative, executive and judicial appropriation bill was passed by the senate within three hours from its first reading. It carries appropriations aggregating \$29,815,250. A number of unimportant measures were passed together with a lot of pension bills.

The house passed twenty-two bills, six senate and sixteen house measures, all being of little general interest. Williams kept up his policy of insisting on the presence of a quorum.

Rate Bill to Go to Conference.

Washington, May 22. — The railroad rate bill was considered for three hours by the house committee on interstate and foreign commerce, and the decision reached to recommend disagreement to all of the senate amendments, and to send the measure to conference. The committee will not ask

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

O. T. ERHART, SPECIAL AGENT

that instructions of any character be given to the house conferees.

Two Illinois Men Named.

Washington, May 22. — The president has sent to the senate the nominations of Louis H. Ayme, of Illinois, to be consul general at Lisbon, Portugal, and Frank P. Sargent, of Illinois, to be immigration commissioner.

AT THE THEATRES

At the Bijou the new bill is fairly bubbling over with good comedy. The feature attraction this week is John Dunn and Wilhelma Francis and company in the sketch "The Hold Up," all that could be desired in the way of clean, wholesome comedy interspersed with good music and singing.

Mr. Dunn is an actor of the first water and is equalled if not excelled in talent by his charming partner, Mr. Friese as officer Jones was given an ovation on his appearance yesterday. Vardaman, the auburn haired beauty, must be seen and heard to be appreciated. The audience is given a surprise at the finish of the act that causes one to wonder. Swor and Westbrook are singers, dancers and funny talkers that make a good impression. Miss Westbrook's comic songs meet with immediate favor. Claude Austin, the comedy juggler, does clever juggling and introduces some original comedy. Jack O'Toole, the singer, has a new song for the week that he handles in his usual style. The new life motion pictures are good and if pleased capacity audiences are to be taken as a criterion the Bijou will break records this week. The usual daily matinees prevail throughout the week.

TO BEGIN AT ROOT

(Continued from page 1.)

place. The possibilities of the practice are so great that I do not believe too great care can be taken in safeguarding our young people. As long as our present social conditions exist I believe there should be open respectable saloons absolutely separate from other business and under police surveillance, and that the license should be increased as thought best by our representative citizens.

"The temptation to gamble should be entirely eliminated from the young. Any society for the promulgation of these principles should be under the control of our respectable businessmen and should have for its purpose the support of our city official and guarantee a square deal for every citizen.

"Such a society should have a head who should be held responsible for its continued progress. It should be thoroughly understood that the movement is to take on none of the phases of the spasmodic reform but must be strictly restricted to a healthy growth morally and socially which shall correspond to the general improvement of our beautiful city which has been made possible by the support of our generous and most faithful citizens.

"Having met with the unanimous and enthusiastic approval of the body of representative citizens who responded almost to a man to the call the president hopes further.

"There is at the head of this organization a small body of businessmen who are perfectly willing their names shall be known but there are a much larger number who from legitimate business reasons, while they stand by us loyally, do not wish their names published. To the latter and to all others in like position who favor the organization with their support and information I guarantee on my word and honor anything confided in me confidently will be absolutely kept as such. I do not want heresays and will absolutely turn down any report not accompanied by facts. I a short time I will have a strong secret committee at work on what reports I will largely rely for forming my opinions, which as far as possible shall be unbiased.

"To my fellow citizens whose interests it may be necessary to antagonize I wish to add: I have the greatest sympathy with any man whose resources for bread and butter are touched. I shall do nothing unnecessary in making any change which may be thought best and I beg of our citizens that to any whose business may be unfavorably affected you give your loyal support in readjustment of their business.

"As far as possible I will soon call on you in person and when I do please consider me your friend and will assure you that nothing you confide in me shall be revealed. While I will have a large secret committee I will deal openly with you and guarantee you on my word and honor that as long as you strive to be law abiding citizens I will never employ a secret detective or countenance a set up game.

"Hoping and believing that this course will be for a wonderful benefit to all concerned I beg to subscribe myself a friend to any man who is trying to make an honest living, the President of the Businessmen's League of La Crosse."

A Clear Complexion and Bright Eyes.

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. M'CALEB'S SIGNS

LOOK BEST and WEAR LONGEST

S.S.S. PURELY VEGETABLE

The fact that S. S. S. is a purely vegetable preparation, containing not the slightest trace of mineral in any form, has been one of the strongest points in its favor during its forty years of existence. It is recognized everywhere not only as the best of all blood purifiers, but the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels and so damaging the system that even if the original cause of the disease has been removed, it is left in such a deranged and weakened condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral property in some form. Being made entirely of roots, herbs and barks it is absolutely harmless to any part of the system, and while curing disease adds strength and health to every part of the body. S. S. S. removes all poisons, freshens and purifies the blood and gives better and more lasting results than any other blood medicine. S. S. S. is the very best treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all troubles due to an impure or poisoned blood supply. Besides being the King of blood purifiers S. S. S. is the best and most invigorating of all tonics.

GANES WOULD SUC- CEED COPELAND IN G. A. R.

John W. Ganes, Trenton, Dodge county, a well known member of the Grand Army of the Republic, is a candidate for election as commander of the department of Wisconsin to succeed Commander F. A. Copeland of La Crosse. The election of a commander will be held at Marinette during the encampment beginning June 16, and lasting three days. Mr. Ganes so far has no opposition.

Mr. Ganes enlisted at Beaver Dam, Dodge county, on Aug. 15, 1862, when 16 years of age, and he served to the close of the war in Troop D, First Wisconsin cavalry.

He was orderly to Gen. La Grange and to Gen. E. M. McCook, and in carrying the orders of these officers his life was constantly in danger. Speaking of Mr. Ganes' record during the war, Gen. La Granger in a recent letter to a friend, said that "Ganes was one of the bravest of my soldiers."

Mr. Ganes is a native of Dodge county, and he always has lived there. He was born on April 16, 1845. He was one of the earliest members of the Grand Army of the Republic in Wisconsin. He has been repeatedly commander of his post. He has attended all of the state, and nearly all of the national campaigns. Mr. Ganes still is an exceedingly active and vigorous man. During the Spanish-American war he raised a company, but the regiment of which it was part was not called into service.

Mr. Ganes served in the civil war with Edward D. Coe, now United States pension agent, and with Gen. Henry Harnden.

Since the close of the war Mr. Ganes has devoted himself almost exclusively to the conduct of a fancy stock farm at Trenton. He makes a specialty of breeding fine horses, swine, and poultry. He recently served as foreman of a United States grand jury.

FURTHER DETAILS OF CAPTURE OF "SAD" PUTER

Details of the capture of S. A. D. Puter, wanted on warrants issued in La Crosse and Portland, charging him with complicity in the Oregon land frauds, have been received by the local sheriff's office.

He was arrested at Alameda by secret service men. Puter, did not willingly submit to arrest, but attempted to draw a revolver. The detectives quickly covered him with their pistols but even then had much trouble in getting their prisoner to the station.

Puter arrived from New York three days ago and went to Alameda. He took a room in a lodging house in Park street. Saturday night he visited his wife at Berkeley and after remaining there several hours returned to his lodging house. The secret service men learned of Puter's whereabouts by shadowing a woman. "He was on his way to keep an appointment with this woman when arrested."

Puter had taken the name of James William Barr and traveled under that alias since leaving the east. He informed the detectives that he had engaged passage on a steamer for China and intended leaving for that country in a few days. According to the secret service men Puter's room in Park street resembled an arsenal. Over his bed hung a rifle and in a drawer was a heavy revolver, beside the one found in his possession when captured.

PACKET HERE JUNE FIFTH

According to word received here today the first Diamond Jo steamer of the season will arrive from the south the afternoon of June 5. The Sidney will be the first vessel started out by the company. The boat is due here about noon June 7 on the down trip.
